RE: Notice of Proposed Action to Reclaim Numbering Resources, Docket UT-051103

Dear Ms. Washburn:

The following is provided as a supplement to information Qwest filed in this docket on August 10, 2005, in response to Glenn Blackmon's email of July 28, 2005 requesting that Qwest review its use of number blocks in the 360 area code.

As reflected in our letter of August 10, 2005, of the 184 blocks Qwest was asked to review as part of the July 28, 2005 email, Qwest provided an accounting of 168 blocks leaving 16 blocks for further investigation. The donation analysis for these blocks has been completed and is as follows:

- Subsequent to our response of August 10, 2005, an additional block was added to our list for investigation. That block was 360-514-5, in the Vancouver rate center.
- Of the 17 blocks on the list, Qwest has committed to donate two blocks in the Vancouver rate center, in conjunction with our pending request for additional numbering resources in Docket UT-051243. In addition to these two blocks, Qwest commits to donate five additional blocks: one block in the Bremerton rate center, three blocks in the Olympia rate center, and one block in the Silverdale rate center. The remaining 10 blocks will be retained in Qwest's inventory for growth.

Attached is a complete analysis of the 17 blocks in the Washington 360 NPA. Pursuant to WAC 480-07-160(3), Qwest requests that portions of this information be held as confidential, as these documents contain valuable commercial information, the release of which would be detrimental to Qwest Corporation.

Docket UT-051103
Page 2

It should be noted that before including the donations discussed above, and starting with the implementation of number pooling in the 360 area in 2002, Qwest has donated a minimum of 137 blocks, encompassing 22 rate centers, in the 360 NPA.

If you have any questions, please contact me on 360-754-3241 or at Holly.Dean@qwest.com

Sincerely,

Holly Dean
